

ATLAS Leather Corp

Established Leather Exporters, Suppliers to British Furniture Manufacturers

ATLAS Living

Premium Sofa Retail Stores in India

Background

Professionally run company setup in 2010 by UK educated, young scion of a business family having strong legacy in wood and leather industries **since 1908**.

The Company has India's largest cutting and sewing operation, catering to the furniture, automotive and aviation industries. In UK it counts amongst its customers some of the biggest brands like **Marks & Spencer, Harvey's, DFS** and many more.

Manufacturing Facilities & People

State of the art, **SEDEX** certified factory in Unnao, India spread over 50,000 square feet with latest machines and automated assembly line manufacturing facilities.

With over 50 employees and senior management team educated abroad and having relevant international and domestic experience in brands like **IKEA, Brighton Furniture** and the likes.

UK Partner

Dragon Leather, UK with over 30 years experience in the business is our **Strategy & Technology Partner** helping us design and develop all our products as per international standards and providing us inputs on manufacturing and retail processes. UK experts regularly visit our factory to train employees on latest techniques and share best practices.

India Expansion Plans – Premium Sofa Retail

ATLAS Living is our first foray into the mostly unorganised Indian furniture retail sector.

Our first retail store in a prime Kanpur location in early 2017 has received an overwhelming response, pushing us to quickly ramp up production facilities to fulfil all the orders.

ATLAS is now looking to expand into neighbouring cities with plans to add at least 4 more stores in UP & NCR in the next 1 year. The second store is planned in **Lucknow in September 2017**. The ambition is to rapidly scale up to **100 stores across India** after laying a solid foundation.

Using British furniture manufacturing and retail techniques ATLAS is attempting to revolutionise the furniture retail sector in India by offering customisation options of hundreds of colours in different materials like leather, fabric and pvc and introducing concepts of conveyor style manufacturing, 7 days delivery and much more.
